Local Happenings

Help the "Recorder" build Raymond

* * *

Bill Christenson moved the household effects of Earl Peterson to Cardston this week.

* * *

Thos. F. Allen is very enthusiastic about his new Chev. Six, which he is just limbering up.

* * *

E. J. Anderson, B. Sc., Eyesight Specialist, will be in Raymond at the Hotel on Tuesday, May 14th. advt.

* * *

Mr. Beggs, of the Chrysler Sales force was in town on Monday at the local Chrysler Agency.

* * *

Mr. and Mrs. Earl Peterson moved to Cardston on Monday where Earl has a job with the Motor Home Service.

* * *

J. H. Ford, has taken the agency for the Twin City line of Tractors and Threshers and will handle these in connection with his Chrysler Sales and Service Station.

* * *

Work is progressing very nicely on the new Garage of Mehew Bros. The cement work is being rushed to completion.

* * *

The Taylor Stake Primary Board accompanied by Mrs. Amy L. Allen and Mrs. Lydia Watson attended Primary at the two Magrath wards on Tuesday.

* * *

A building permit has been issued for the erection of a Manse 28x36 feet, in connection with the Catholic Church here. The foundation is nearly all completed now.

* * *

Two dances were held in the Opera House last week, a Junior dance on Wednesday evening, May 1st and a Dance on Saturday night, May 4th Five Syncapators playing for it. A very enjoyable time is reported at both dances.

* * *

Ed. Hancock, our enterprising dairy man has taken out a permit for the erection of a large modern barn 36X66 feet with concrete floor and an 8 foot concrete wall all round, topped by a lumber hay loft which will hold a good bit of hay. congratulations, Ed.

* * *

Mr. and Mrs. K. R. Allred entertained at a theatre party last Friday. After the show a pleasent evening was spent at cards and a dainty lunch was served. Those present were Mr and Mrs. K. R. Allred, Mr. and Mrs. N. L. Mitchel, Mr. and Mrs. S. E. Low, Mr. and Mrs. Chas. Asplund, Mr. and Mrs. P. H. Redd.

* * *

Mr. Greenwood, of Macleod, has opened a first class meat market here in the premises recently occupied by the Piepgrass Meat Market. Saturday the opening day, the supplies were nearly all sold out. The new shop is called "The Economy Meat Market." They have an ad in this paper which you should read. Mr. Greenwood is an experienced butcher and Raymond can be assured of splendid service from his shop.

* * *

The U.F.W.A. held their regular monthly meeting last Thursday at the home of Mrs. J. W. Evans. Mr. Emma Nillson gave a very instructive paper on "The Aims and Object of the Canadian Council of Agriculture." The accomplishments of the Council during the past year will be dealt with by Mrs. Nillson at a later meeting. The balance of the program consisted of a piano duet by Mrs. Rudolph Tollestrup and daughter La Rosa, a reading by Miss Thelma Smith and community Singing led by Mrs. R. A. Nalder. Lunch was served to thirty-five members and friends by Mrs. J. W. Evans Mrs. R. A. Nalder, Mrs. June Allred and Mrs. Verenn B. Redd.

The next meeting will be held June 6 th at the home of Mrs. T. O. King, the assisting hostesses being Mrs. M. T. King, Mrs. Owen King and Mrs. Mable Henniger. The program will be furnished by members of the Magrath U. F. W. A.

Good Progress Made On Second Ward Chapel

The new Chapel, now under construction by the Raymond Second Ward of the L. D. S. Church, will when completed be one of the finest, if not the finest church of its kind in the province of Alberta. It is of pressed brick and tile construction, and the architecture, while in a class by itself borders on the old English.

The main entrance will be from the northwest cornor of the block and the main doors will open into the rotunda which is the center of the building and from which the entrances lead into the other parts of the building. This is about 30 feet in diameter and this high ceiling goes to the second floor, with class rooms on the third floor. The stairways go up this part of the building to the top floors.

The Social Hall which is the west wing, will be 32x84 feet, with a stage in the west end and, will be fitted with wagons or wheel platforms, so that if part of an evening is spent in program and the rest desird for dancing these wagons can be wheeled out, the benches or chairs loaded on them, and then pushed back under the stage and the floor be clear for games dancing, or whatever the need may be. There will also be entrance from the outside to the stage.

The Assembly Room stands north and east from the Rotunda and is 32x80 feet with a pulpit, etc, capable of seating 480 people without crowing and the floor gradually raised toward the back, being one foot higher in the rear than the front.

The other wing, on the south-east of the rotunda is three stories high, but only a two foot drop is made here from the floor level of the other parts. This part is 44x48 feet and contains a baptismal font, lavatories. wash fully equipped kitchen, Relief Society room with fireplace, room with swinging doors for Boy Scout work all of which can be used for class rooms, and a Bishop's rooms, and then additional class rooms on the other floors, making in all 18 rooms, 16 of which may be used for class work.

The steam heating plant will be located under the Rotunda, in a room by itself, and being thus centrally located, heat can be sent into either of the three sections of the building immediately.

The roof of the building will all be on the same level and the high windows will be supplied with chapel glass.

The total cost of this structure will be $85,000. and this means that the members of the Raymond 2 nd Ward will have to raise $42,500. as their share of the cost. To assist in this an open-air dance has been suggested, and if held before the partitions and studding was put up 1000 couple could easily be accommodated, and the event would be advertised and be made to include all of the southern end of the province.

B. F. Rolfson is the architect of the building and is in direct charge of construction.

Red Deer To Have Match Plant

The E. B. Eddy Company will establish a match factory in Red Deer, it was announced by Mayor Harold Snell, following a special meeting of the city council this morning. A telegram from A. G. Woodrugg, general manager of the company, authorized the announcement.

Mayor Snell stated that the plant would employ 100 men at the outset. A site, comprising forty acres, had been set aside. It is located west of the Canadian Pacific Railway tracks, and adjacent to the Red Deer river, as a bountiful supply of water is necessary to the operation of the plant.

Long Negotiations

The mayor said that the city of Red Deer had been in contact with the Eddy company for a long time, and that all negotiations had been consummated other than the submitting of a bylaw providing for a fixed assessment. This was one of the purposes of the council meeting today. The mayor did not anticipate any difficulty in respect of securing the consent of the ratepayers.

"This will be an important industry, not only to Red Deer but to Alberta," the mayor observed. So soon as the details are worked out, actual construction will be started. Surveys have revealed that there is almost unlimited timber suitable for match making to be found in the Rocky Mountain House and Breton districts. Through the co-operation of the Calgary Power Company, attractive power rates have been secured, and the city will install water, sewer, and light services to the site. Then the plant will be served by the Canadian Pacific and Canadian National railway system.—Calgary Herald

STOCKER CATTLE DUTY UNCHANGED BY TARIFF BILL

Beef Duty Increased from Three to Six Cents Pound — Milk and Cream Meet Higher Barrier, Also Lumber and Shingles — Three-Cent Duty on Sugar

The tariff bill was introduced in the house by Chairman Hawley of the ways & means committee at nooon today. Even before it was offered, mutterings of trouble were audible. Agricultural members from the west and south declared themselves displeased with the rates on agricultural products and said they were not high enough. Industrial members were also dissatisfied.

It was disclosed today, that, while the bill would probably be driven through the house by th Republican organization, it would be radically revised and rewritten in the senate.

While imports from Canada will be to some extent curtailed by the bill, the increase in general as to products largely shipped in from Canada are not as great as many anticipated.

They are:

Hides are left on the free list.

Butter is not included, although milk and cream are materially raised.

Corn is increased from 15 cents to 25 cents but grains generally are unchanged.

Material increases are made in rates on lumber and shingles.

Beef is increased from three cents to six cents a pound.

No change is made in stocker cattle.

Tapioca and sago are left on the free list.

Cement is given an eight cent duty, while gypsum remains on the free list.

The world rate on sugar is hoisted to three cents and blackstrap for alcohol is raised from one-sixth of a cent per gallon to two cents.

Remarkable Sound Effects Enhance Latest Dix Drama

Indian Music and Inspirational Score Make "Redskin," Filmed In Color Against Natural Backgrounds, Another Great American Epic.

Sound effects and music, perfectly synchronized with the action of the picture by Paramount's new processes enhance the natural beauty and majesty fo Richard Rix's latest starring picture, "Redskin." The picture, more than two-thirds filmed in natural color, is a new epic of the West, a companion-piece for the famous Richard Dix masterpiece, "The Vanishing American."

No pains were spared to make this picture, which will show at the Capitol theatre To-night and Saturday, one of the greatest ever placed on the screen. Newly perfected Technicolor processes designed to photograph the scenic beauty of the famous historic places of the West just as they appear to the eye, were contracted for and used with remarkable results.

A special theme song, "Redskin," which has already won universal approval from radio and dance orchestra audiences, is introduced in the picture and a splendid chorus of men and women chants the original Indian songs, including the well-known wedding chant of the Navajos.

"During the ceremonial dances in several sequences of the picture, the beat of the tom-toms and the low singing of the Indian braves and squaws add to the realism.

Miss Helen Clark, Victor recording artist, sings the theme song during the showing of the film and the Paramount orchestra of 75 pieces carries the musical score throughout. The song was written by J. S. Zamecnik and Harry S. Kerr.

"Redskin" is one of the most complete and beautiful historical moving pictures that has ever been made. The scenes were made in the Indian country in Arizona and New Mexico and hundreds of Indians appear in important roles.

HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION READY FOR SCHOOL

It may appear as if this article had been given, by mistake, a May date for publication instead of one in September. Just now, most people are likely thinking of the close of school, or promotions and summer vacations. It is however, time for thought, particularly concerning the children who will be starting to attend school for the first time this autumn.

Whenever and wherever a group of children are examined upon entering school, quite a high percentage of them are found to require medical care. They are not ill, but they have what are generally called defects. These defects may be diseased teeth or tonsils adenoids or some similar condition. Such defects do not make the child ill in the ordinary sense of the word. They are however a serious handicap to the child; they constitute an additional burden which drains the child's reserve. No parent would deliberately do anything to interfere with his child's physical or mental development, yet the parent who does not have his child's defects treated is not allowing the child a fair chance.

Now is the time to have the child who has not as yet attended school examined, and if he is found to have defects, to have them treated. By having this done now, the child will have the summer in which to build up his health, so that he may start to school this fall properly prepared to secure the greatest benefit from his school attendance.

We have stated that defects do not cause the child to be ill. This does not mean that defects are not a serious menace; they are. The damage done by defects is not as a rule, seen until adult life. A large percentage of heart disease, of kidney disease and other disease of middle life are due to neglect of diseased teeth, tonsils and other such parts where there is infection; that is, living germs.

The early proper treatment of defects is our chief hope of decreasing those diseases which now take a heavy toll at middle age.

Questions, concerning Health, addressed to the Canadian Medical Association, 184 College St. Toronto, will be answered personally by correspondence.

MANY NEW PUBLIC BUILDINGS PLANNED

A number of new Dominion Government public buildings will be erected shortly at various points in Alberta. According to the estimates totalling $696,700 recently passed by the House of Commons at Ottawa, provision is made in these estimates for the following construction: public building at Calgary $300,000. building for immigration and customs purposes at Carmangay $2,500; building at Camrose $35,000; immigration and customs building at Coutts $2,500; grain inspection building at Edmonton, $5,000 immigration building at Edmonton $65,000; addition to public building at Edmonton $100,000; armory accommodation at Redcliff $1,200; additions and alterations to Red Deer public building $2,000; public buildings at Vegreville $35,000; public build ingat Wainwright $28000; improved equipment, Calgary post office $5,500; and improvements and repairs to various other buildings in the province $17,000.

HEAVY FIGHTING IS REPORTED IN CHINA

Hongkong, May 8—Heavy fighting was in progress along the railway from Canton to Kowloon between Kwangsi forces under General Hisu, Klang Tong and Cantonese generals. Railway service from Kowloon to Canton was suspended under orders from Canton.

The native newspaper here said the Kwangsi had captured Shiuhing, west of Canton, and were rapidly advancing on Canton with the Cantonese troops retreating before them.

Chinese firms at Hongkong are exporting cargoes to Canton for the present.

ANNOUNCE REDUCTION IN AMUSEMENT TAX

The existing tax on low priced tickets of admission to such places of amusement and entertainment as moving picture houses, chatauquas, etc, has been cancelled by a recent order-in-council of the Alberta Government. Admission prices not exceeding 25c. will hereafter be exempt from tax, the only exception being places for public dancing. The order is to be effective on June 1st. No change will be made in the cases of tickets for which more than 25 cents is charged.

High School Column

LENVOI IN R. H. S.

When schoool's last examination is written, and the papers are folded and mailed;
When the hardest subject is finished, and the poorest students have failed;
We shall rest, and faith we shall need it! Forget school for a day or two;
'Till the bell of the old Raymond High School, shall ring us to work anew.

And those that have passed shall be happy; they shall sit in the next grade's chair;
They shall pour over books in the morning, with brain wandering here and there;
They shall find real books to study from; Tennyson, Mowatt, and Bail;
They shall work for days at a sitting, and never stop studying at all.

And only the teachers will praise us, and only the examiners shall blame;
And no one shall study for pleasure, but all shall study for fame.
And each for the marks brought from studying, and each in his separate chair,
Will write his knowledge as he learnt it, for the marks that will make him a star.

With apologies to Kipling.

Hear Ye! HearYe! Proclaim this message through all the realm: Wanted: A Pied Piper, or any person qualified to charm and lead away the mice from the GradeXI class room.

Last Thursday Mr. Allred and the Junior class visited the Raymond Agriculture College. It was a profitable morning for every one Mr. Asplund gave a demonstration of the Babcock milk test and then conducted the class around the barns and poultry house. The characteristics and qualities of the Holstein were explained and one of the best Holstein heifers in the province was exhibited Champion Tamworth hogs and a fine Oxford ram were furthur points of interest. The poultry house and brooders were visited and mash like that fed to the champion British Columbia hen was examined. A shower of rain as the students left finished the morning.

Grade XI has followed the Sophmore policy of "Pay as You Stay Away." early classes.

The Seniors enjoyed a class theatre party last Friday evening. After the show they were entertained at the home of Willford Meldrum. An appetizing lunch was served. The Seniors now have an enthuseastic class spirit.

Scouts Chosen To Attend Jamboree

Six Lucky Lads Will Go To Birkenhead From Alberta In July

Edmonton, May 7—Picked as the official Alberta delegates to the International Boy Scout Jamboree at Birkenhead, England, from July 19 to August 13, six lucky lads are now looking forward to the time of their young lives. The official selections as announced on Monday were:

Edmonton — Charles F. Rowsell.
Wetaskiwin — Roger Paton.
Vermillion — Morwood Brimacombe.
Calgary — Douglas Robertson, 3218 Seventh street west.
Lethbridge — Charles Middleton, 636 Fourteenth stret.
Medicine Hat—W. Woznow, 521 Allowance Avenue.

These lads were the winners of the scholarships provided from the Govenor-General's fund which means that they will be sent to the big Scouts' celebration at no cost to the province or to themselves.

OBTAIN YOUR TITLES

The certainty of death and the uncertainty of life, brings home with double force the fact that as we live from day to day we should be prepared for whatever comes our way.

There is one practice prevalent in our community that is the cause of considerable difficulty and red tape; and that is the practice of people buying a parcel of land, getting a receipt for it, and then going on for years, living on the property, continually improving it, and never taking the trouble to obtain the title to it, and in a great many cases not even a transfer.

This leaves things in a deplorable condition in case of removal to some other district, or in case of death, because the title is the thing that really counts in the question of ownership of real estate.

Mayor Cope informs us that people are continually coming to him with their problems, regarding these things problems which are of their own making because of carelessness in the matter of transfers and titles. It takes hours of searching through ancient files and records to establish ownership and then issuing of new receits, vouchers, etc. to make possible the obtaining of a title.

We wouldnt pay a light or water bill, a grocery bill or a doctor's bill without a receipt duly signed, and yet we will build a beautiful home, furnish it with costly furnishings, make it our earthly paradise as far as our circumstances will permit, and then when we are questioned, we find that we haven't even the scratch of a pen to show that the land our home stands on belongs to us.

Verily, we strain at the gnat and swallow the camel in a great many matters pertaining to our business affairs.

Let's obtain our titles and see that they are clear.

TOWN OF RAYMOND

Secretary Treasurer.

SPRING CLEANING

Spring is the season of spring poets, rising sap, the return of the birds and -- spring cleaning-- The first breath of Spring seems to arouse in the breast of the gentlest woman an irresistible desire to turn the house inside out from cellar to garret. It is a yearly rite, an institution. Things no longer of use are discarded and replaced, necessary repairs are done where required, everything in fact put in good order for the busy season ahead. But does that same painstaking house wife spring-clean the human machines on which she depends to direct and accomplish this seemingly important work? Does she realize that she cannot replace the broken or worn out mechanism that is her body, with which she must accomplish the daily duties of her small world? No, but the breaking down of the human machine can be prevented. The yearly physical examination is much more necessary for the beautiful and intricate body God has given man with which to do his work on earth, than the annual Spring Clean of the house and ynrd.

A brilliant mind can accomplish so little if hampered by a broken body. Daily bread depends on a sound body. Why not make an appointment with your doctor this week and have that spring clean. Make it an annual affair.

Literature on the conservation of health can be had from the Canadian Red Cross Society, 407 Civic Block, Edmonton.

Laura May, she passed away;
For her death held no terrors.
She lived a Christian all her life,
No runs, nohits, no errors.

Here and There

264.

Three fish hatcheries will soon be in operation in Alberta, those at Banff and Waterton Lake being supplemented by one at Edmonton. Each can handle 1,600,000 fry a season. Those are not necessarily "fried fish."

A twenty dollar gold piece that was insured for a thousand dollars and that sold for twelve hundred, was recently shipped by Canadian Pacific Express. The coin was one of seven struck by the government in the Cariboo district at the time of the gold rush, it being thought that a mint could best be operated on the spot. This proved uneconomical, however, and after seven pieces had been issued, the project was abandoned. The coin in question was shipped by the S.S. Montclare to a numismatist in England.

Over 97% of the total investments of the Canadian Pacific Railway and all its varied enterprises are in Canada.

Most fruits, except those indigenous to the tropics, or sub-tropics, are now grown in British Columbia. Apples, apricots, cherries, peaches, plums, prunes, nectarines, figs, loganberries, raspberries, strawberries, grapes, almonds and other less hardy fruits and nuts are now grown commercially. Apples have been grown for 17 years, rising in volume of production from 220,000 to 3,000,000 bushels.

With 99 arrivals scheduled at the Port of Montreal and Quebec during the 1929 season, the Canadian Pacific sets up a new record for one line sailing its ships via the St. Lawrence route. There will be 74 arrivals and departures at Montreal and 25 at Quebec, the season opening with the arrival on April 26th of the Montclare and the Duchess of York. The latter will be on her maiden voyage of the St. Lawrence. The first arrival at Quebec will be the Empress of Scotland, May 4th, after a winter of cruising in the Mediterranean.

One little pig went to market; and low and behold there were eight little pigs when the shipment arrived. It was a sow, and en route seven little pigs were born. Whether the shipper or the express company should pay the fares of the seven extra and unexpected pigs is a matter that has not been decided yet.

Thirty thousand tons of railway material—trucks and steel framing for box cars—will shortly leave Vancouver for the Orient, as equipment for the Trans-Siberian Railway. The order for this material was placed thirteen years ago, but delivery was halted with the outbreak of the Russian Revolution, and the equipment held in the Canadian Pacific Railway's yards at Coquitlam until conditions for delivery were more favorable.

Vancouver's growth since its incorporation in 1886 is revealed by the official estimate of the population of the new city by the assessment commission which places it at 228,193 for the city proper. A reliable but unofficial estimate of the population of Greater Vancouver is 285,000 exclusive of New Westminster. Greater Vancouver includes the City of North Vancouver, the district of North Vancouver and the municipalities of Point Grey and West Vancouver. Greater Vancouver and New Westminster have a population of 328,000 or about half the population of the entire province.

MOTORISTS HEAR OF ALBERTA'S BIG HIGHWAY PROGRAM

Heeding the motorists' cry for better roads, the provincial government will award contracts this week covering 168 miles of highways in various parts of the province. This is the first instalment of the program of road improvement this season.

A stretch of 47 miles from Winterburn to Seba beach, west of Edmonton, is on the program for this year. This will connect with the Stony Plain road now built, and be ready for gravelling next year.

Standard earth grading will be done for 36 miles on the Stettler road, from Lacombe east to Nevis. A 12 mile stretch northwest of Gleichen will also be graded.

The gravelling program includes 18 miles from Inverlake west of Strathmore, to a point six miles east of Strathmore, and 30 miles of first course gravelling between Lethbridge and New Dayton, on the final section of the Sunshine trail. Then there will a contract let for 25 miles of second course gravelling from Cardston to Waterton. It is expected that there will be about fifteen further lots of road contracts on the program for summer and autumn.

Members of the Alberta Motor Association are gratified over this extensive program of better highways. The organization has given special attention to this need and is doing its part in aiding in the demands of the growing tourist traffic in this province.

Friday's rain last week added .7 of an inch of moisture to the already more than sufficency which has come.

VILLAIN OF SEA TALES IN CANADA'S FISH CATCH

Ottawa, May 8—Octopus figure as the villians in many a sea story, but they also figure in the more prosaic statistics of the Canadian fisbery. Reports of the Fisheries Branch of the Department of Marine and Fisheries show that a number of octopus are caught annually on the Pacific Coast; for instance, the catch totalled 357 hundredweight in 1928. Some of these fish are eaten by Orientals, the others are used for bait.

FORTY-FOUR DEAD

Atlanta, Ga., May 6. —Forty-four persons were known to have been killed, five others missing and approximately a 100 injured in a series of tornadoes and storms that struck sevon southern states last week.

The death list was expected to be swelled by a complete check of the missing and the outcome of serious injuries to a dozen others.

WILL CONTINUE TO ADVERTISE ALBERTA COAL

The Alberta coal publicity office in Toronto will be continued during the coming season as part of the program to popularize the Alberta fuel on the Eastern market. A grant of $5,000 to assist in this work was authorized at the last session of the Legislature and the majority of this sum will be used in carring out an extensive program of advertising through the eastern provinces.

News Notes

Mrs. A. Thompson and son Athoi, were over from Magrath for the week end.

* * *

The land dried rapidly following Friday's storm and a great many outfits were going full swing on Monday forenoon.

* * *

Mr. & Mrs.Roy Nalder and family returned on Monday's train from Cardston. Mrs Nalder has been visiting with her Mother, Mrs Ada Pilling, who is quite ill at pesent.

* * *

Rayo Woolf and wife, and Earl Peterson spent the week-end in Cardston, and Rayo brought a new Chrysler back with him on Monday. He reports the road from Lethbridge as being in very good condition.

INVESTORS FLY FROM BOSTON TO LOOK OVER TURNER VALLEY FIELD

Three Men Land in Calgary After 5,000 Mile Trip—See Field Friday

Three boston investors landed in Caigary with a Travelaire cabin monoplane on Thursday afternoon at 4:20 o'clock for the purpose of investigating investments in Turner Valley oil. The machine was piloted by Russel Boardman, owner, and its passengers were S. P. Barrows and Clayton V. Sawyer, also of Boston. They arrived from Seattle, having made the trip in 3 hours and 20 minutes.

Mr Boardman declared that they had flown from Boston across the United States to Los Angeles, thence to Vancouver, Seattle and Calgary, covering 5,000 miles by air, for the prime purpose of visiting Calgary's great oil field. They will stay here for several days and will go east by way of Winnipeg, where they will investigate mining propositioons in northern Manitoba.

Fly to the Oil Field

Mr. Boardman said that the party, along with some Calgary men, would visit Turner Valley in their ship Friday and that while here they might take sevoral side trips. The journey from Boston had ben accomplishd without forced landing or mishaps of any kind.—Calgary Herald.

COMPLETION OF JASPER HIGHWAY THIS YEAR ASSURED BY FEDERAL AND PROVINCIAL GOVERNMENTS

Urged as a primary necessity by the Alberta Motor Association, boards of tradeand other bodies for years, it seems that 1929 will see the completion of the Jasper Highway as a passable motor route between Edmonton and thepopular mountain resort. Furthermore, it will mean that an important link has been completed in another all Canadian route to the Pacific coast

Announcements last week by Hon. O. L. McPherson, minister of public works for Alberta, and Hon. Charles Stewart, minister of interior at Ottawa,showed that realization of the Jasper highway is assured this year.

The Alberta minister stated that this province was ready to undertake the completion of this highway if the dominion authorities would agree to finish the eightmiles on the park side. Providing the federal authorities would do their part, the province would complete its gap of about the same length east of the park and south of Obed.

Alberta was also asking that authority be given by Ottawa to enable this province to make necessary improvements to the abandoned grade between Evanshurg and the park entrance. This work would include renewing or replacing culverts, widening the grades and other reconditioning for motor purposes. This is now being taken up with Sir Henry Thornton, president of tho C. N. R.., and Hon. C. A. Dunning, minister of railways. It was stated by the provincial minister that by the end of the season there would be a passably good raod, dirt of course, but this would be ready for a gravelled surface in the near future.

The next day it was reported from Ottawa that Hon. Mr. Stewart had stated that the federal government would do its share in completing the park section of the road. He said work had been under way for three years and it would be finished in 1929.

At its conventions for several years past, the Alberta Motor Association has passed resolutions pressing the governments to rush completion of the Jasper highway. The fact that the goal has at last been reached is a further demonstration of the good work done by the Motor Association of this province.

SOUTHERN ALBERTA DAIRY POOL EXPANDING

Construction of a new building in Calgary to house the head office of the Southern Alberta Dairy Pool has been decided upon. It is planned to continue operations in the present premises until the coming fall when work will be started on the new structure which will be similar in size and design to that now under construction in Edmonton by the Northern Alberta Dairy Pool. In the case of both buildings, financial assistance is being provided by the Government in the form of a construction guarantee under the new Co-operative Guarantee Act.

The Business of Agriculture

Farming is more than an occupatioon; it is a highly commercialized businesss which requires careful planning and thoughful execution. Bountiful production is necessary but much effort is wasted unless the business of disposing of the year's output is properly managed. In conducting the business of the farm the Standard Bank can play a prominent part and useful part. Consult the manager and learn how true co-operation between oanking and agrienlture oulids a more prosperous community.

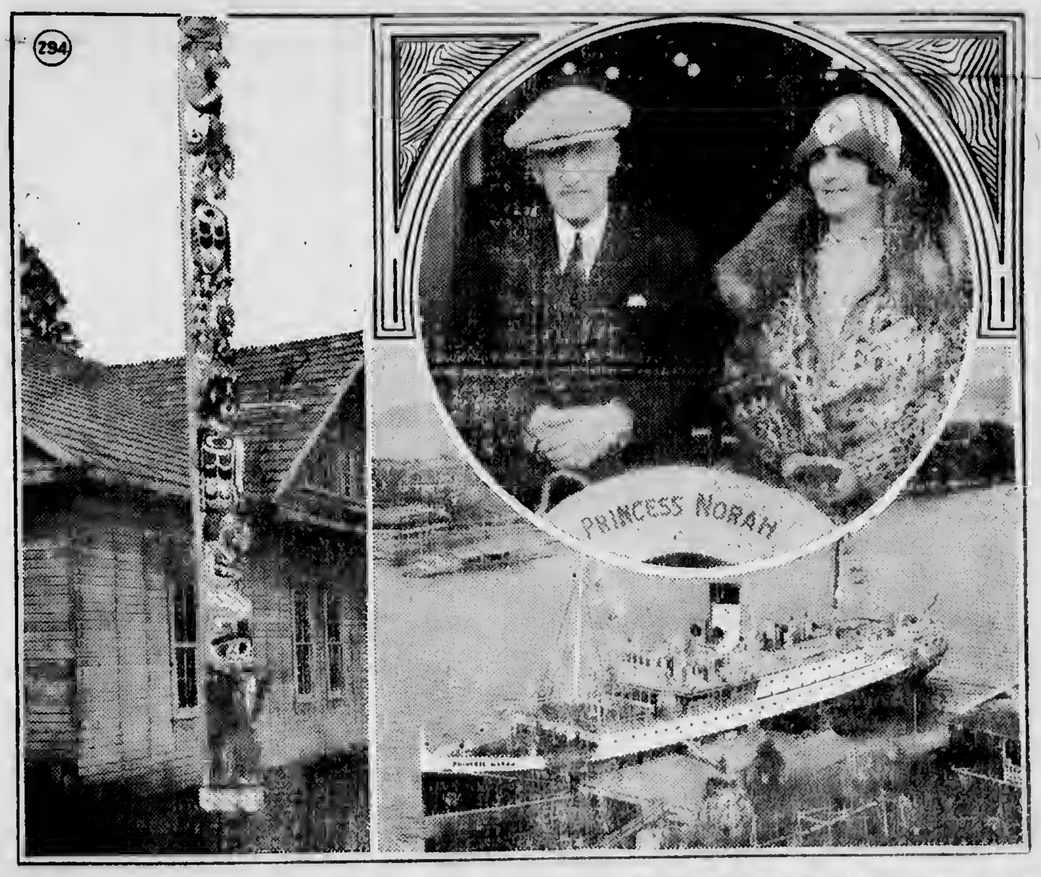
FORTY-FOOT GIFT FOR RIDEAU HALL



This totem pole is one of the finest examples of Indian art. Right, Their Excellencies Viscount and Lady Willingdon and the C.P.S.S. "Princess Norah" on which the first vice-regal tour of the west coast of Vancouver Island was made.

When Viscount Willingdon, Governor-General of Canada, and Lady Willingdon visited the West Coast of Vancouver Island on the inaugural cruise of the new Canadian Pacific steamer "Princess Norah" two new epochs were marked for that far-flung corner of the Dominion.

It was the first time that a Canadian Viceroy had ever seen, and in turn, been seen on the rugged coast that is now looming as one of the nation's important industrial and tourist regions; further the arrival of the Norah brought the most luxurious passenger steamer ever to ply in regular service in West Coast waters, now to be the permanent run of the staunch little Clyde-built vessel.

The West Coast had decked itself in gala attire for the visit of the great white chief from Ottawa, tremendous excitement prevailing among whites and Indians alike at the various ports of call. Local interest was heightened by the fact that Their Excellencies cast formality to the four winds, and entered into the spirit of the many receptions and celebrations with a zest not exceeded by any tourist on the coast Incidentally, Lord Willingdon intimated after the termination of his voyage that it would not be the last occasion on which he would see that particular part of Vancouver Island.

Loyalty of the Indians, evident at all points touched, was particularly demonstrated at Friendly Cove, historic spot discovered by Captain Cook in 1778, when a lineal descendant of the great Chief Maquinna, who first saw the white man, gathered his tribe, the Nootka Indian band, in the great council hall to greet the vice-regal party. It was here that Lord and Lady Willingdon were recipients of one of the most valuable gifts in the bestowal of the coast Indians, a huge forty-foot totem pole that has stood for years on the sandy shores of Friendly Cove, the envy of collectors from many parts of the world.

Presentation of the totem was touching in its simplicity yet its significance was not lost. Chief Napoleon, head of the Nootka Band, descendant of Maquinna, was first to extend the Indians' official welcome, elaborate ceremony which included the famous dance of the Thunder Bird, marking this part of the rites. Later, the Indians led the vice-regal party to the site of a huge totem pole standing near the council hall, and Chief Jack, another of the Nootka Band, mounted the pedestal to deliver an impassioned peroration in his native tongue.

His Excellency stood attentively until the Indian Chief had finished his speech, taking it, probably, for the usual honeyed words of welcome. His astonishment and that of many of the chief's hearers was great when "Billy" Lord, well-known industrial leader on the west coast, acting in the role of unofficial interpreter, told His Excellency that Captain Jack had presented the big forty-foot carving as a gift.

Significance of the gift lies in the tremendous value which the Indians themselves place on their historical totems. It would have been a somewhat parallel case, one of the men familiar with west coast customs said, if a white man, on being visited by vice-royalty, had with one magnificent gesture given away his home and the greater part of his fortune.

Their Excellencies, sensing this, accepted the gift with delight, and announced that plans would be made to have it removed from its present historical setting to Rideau Hall as soon as possible.

* * *

The following information has been handed to us by Mr. A. VanOrman, Registiar of Vital Statistics, which cover the records of the past three years: Infants born dead,6; deaths of children under 1 year 15; deaths of children between 1 and 5 years, 3; deaths from all causes, including those mentioned above, 47. Births during the three years were 273. Considering the population of the district, these figures show a low death rate and a high birth rate.

A youth met a maid at the shore,
And he said, "You're the girl I adore;
I trust, yes, I do, that i'll see more of
you," and she blushed, and he
wondered what for.

D. L. Gilbert reports that over 3600 pupils have been furnished with school fair seeds up to date.

CANADIAN FISH SOLD TO HUNDRED COUNTRIES

Ottawa, May 8—Products of Canada's fishing industry are exported to 100 countries and more and fish and fish products account annually for upward of $40,000,000, of the Dominion's export trade totals. The return from the fishing industry is distributed in all parts of Canada, putting millions of dollars in circulation in business.

Ottawa, May 8—Fishermen too, are continuing to help in rolling back Canada's economic map to the northward.

In a report to the Fisheries, S. Travers Fishery Overseer for territory centred around Lac la Biche, far up in Northern Alberta says that one of the Western fish companies has definitely decided to extend its operations next winter to new lakes northeast of Peter Pond Lake, which is in Overseer Travers' sub-district though situated in Saskatchewan. Fishing is already carried on to some extent in waters more northerly than Peter Pond Lake, but the plans reported by Overeer Travers, another indiction of the gradual expansion of the fishery in the Prairie Province.

The fish taken in the waters of Northern Saskatchewan and Northern Alberta include whitefish, pickerel, pike, trout, tullibee, greyling, perch, sucker, and ling.

Ottawa, May 8—Upwards of 100,000 gallons of medicinal cod liver oil are yielded every year as a hyproduct of Canada's expanding sea fishery.

The oil owes its specific medical value to richness in vitamine content and, in a lesser degree to its iodine value.

In 1925 the production of medicinal cod liver oil from the Canadian Fishery was only 26,836 gallons, but since then there has been a great increase. In 1926 the production was 94,383 gallons, and in 1927 slightly less than that 92,597 gallons. Figures for 1928 have not yet been completed and finally revised by the Fisheries Branch, but it is expected that they will show any very materlal differnance from those for 1927.

The Nova Scotia fishery is the largest producer of medicinal cod liver oil. Quebec was second in 1927, producing 22,640 gallons, valued at $18,924. as compared with Novia Scotia's 57,264 gallon production valued at $53,130. New Brunswick produced 12,489 gallons which valued at $12,226. British Columbia's production so far is small.

Cod oil, as dstinct from medicinal cod liver oil, is another hy-product of the fishery industry which adds $90,000 or so to the annual fishery production, but oil obtained as a by-product of the British Columbia pilchard fishery represents approximately ten times that figure.

"I don't see why having your car overhauled should be such a depressing experience."

"You don't, eh? Well, it was overhauled by a motorcycle cop."

2ND WARD MUTUAL TENNIS CLUB ORGANIZED

The Tennis Club of the Raymond Second Ward M. I. A. is again organized for the summer with Milton Strong, Pres., Miss Wyona Hawkins Vice Pres. and Archie Terry, Sec. Treas. Considerable work is being done on the courts, a lot of additional equipment has been purchased this year and about thirty racquet artists have joined to date.

A weiner bust, on Tuesday night at 7:30 p m was the first social event of the season for this club.

When youth calls youth it makes a lot of extra business for the telephone company.

* * *

THE GROUND UP

A man, playing a round of golf, drove off with a mighty swipe. Something soared into the air. It was not the ball, however, but a big clod of earth and grass. "Extraordinary!" grunted the player.

"Yes, sir," remarked the caddy. 'It does seem a bit out of the common.'
